Qualifications

University of Hong Kong: MSc in Computer Science (2004–2006)

Hong Kong University of Science and Technology: BSc in Information Systems (2000–2004)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

With 18 years of experience, I've guided students through advanced programming, algorithms, and computational theory. My expertise lies in helping learners achieve success in A-Level Computer Science, IB Computer Science, and IGCSE Computer Science, focusing on key areas such as data structures, networks, and software development.

I've worked extensively with international schools in Hong Kong, mentoring students in coding projects, exam preparation, and university applications. Many of my students have progressed to top-tier universities globally, excelling in computer science programmes.

My experience includes developing custom lesson plans to match the unique needs of each student. Whether it's mastering Python programming or acing algorithm-based exams, my goal is to help learners build confidence and achieve their academic and career goals in technology.
